Dear Exhibitor,

Welcome to SIGGRAPH Asia 2013!

This is your personal copy of the Exhibitor Manual, which has been carefully compiled to assist and facilitate you in your preparation for the event. The manual will provide you with information required for the preparation of your exhibition stand.

General guidelines, marketing aides and useful addresses are also included in the manual. We recommend a careful study of its content to ensure that SIGGRAPH Asia 2013 will be a smooth and successful experience for your company.

The "Index of Forms" lists every individual form included in the Manual. It is the Exhibitor’s responsibility to submit all necessary order forms to aid in their booth preparations.

Kindly return the order forms to the respective contacts by the stipulated deadlines so that we can ensure the services you require are arranged before the exhibition. Do remember to make a copy for your own reference.

While all measures have been taken to ensure that all information is being communicated, we understand that each exhibitor is unique. As such, you will most probably have some questions for us with regards to your participation. Should you require any assistance, please feel free to contact us.

You may also visit our website sa2013.siggraph.org to gain access to the latest information about our event.

2.1 Floor Loading Capacity
Floor loading inside exhibition Hall 3G must not exceed 1,700 kg/sqm or 350 lbs/sq ft.

If exhibitors would like to bring any equipment exceeding the limit above, they will need to inform the Organizers 1 month before move in date. The Organizers will then advise on the documentations required for submission for approval to bring in the equipment.

2.2 Power Supply and Electrical Cabling
All electrical installation, supplies, wiring and dismantling work at the exhibition MUST be ordered and carried out by the appointed Official Stand Contractor.

All electrical equipment and installations should be tested and approved by the appointed Official Stand Contractor prior to turning on the electricity supply.

The standard electrical current supply available for use is 220V (single phase) or 380V (three phase). Exhibitors requiring different voltage/frequency or special connections to equipment must arrange directly with the appointed Stand Contractor.
B) TECHNICAL INFORMATION

Exhibitors who reserved for raw space / island booth and using external contractors are required to adhere the following:

- submit their electrical order form (refer to Form 7 – Electricity & Lighting) accompanied by a proposed layout plan to the Official Stand Contractor for their approval. Inspection on-site will then be carried out before the power supply is turned on.

- exhibitors or their contractors who wish to bring in special lights, lamps and lighting to be used in their stand must receive approval from the Official Stand Contractor at least 4 weeks before the commencement of the exhibition. Applicants are requested to submit the following information and documents when applying for approval:

- boiler, furnace, stove etc shall not be used

Each electrical supply provided is intended for one equipment or machine on display. Multipoint socket outlets are not permitted as an overload may be caused, leading to a trip in the incoming power supply. Severe trips may take hours to rectify, thereby causing inconvenience to all Exhibitors.

During the move-out period, temporary electricity supply can be arranged by prior arrangements (at least 24 hours in advance) with the Organizer.

2.3 General Lighting
The Organizer will provide general lighting in the exhibition hall during show time. An adequate level of lighting will be provided during move in and move out period.

When in operation, audio visual equipment must not disturb visitors or other Exhibitors with excessive sound / noise. All audio visual equipment should be kept to a maximum level of 70dB, unless otherwise stated by the Organizer. Sound levels will be measured using a noise meter at each booth. The Organizer reserves the rights to discontinue any audio visual presentation which in their opinion is detrimental to the event.

All installed speakers are to be placed facing inwards to the booth and not towards the aisle or other Exhibitors. Where a high level of noise or other objectionable factors are involved, demonstrations may only take place at timing stipulated by the Organizer, who reserves the right to disallow a demonstration at any time.

No photography or video recording is allowed in the exhibition hall unless approval is obtained from the Organizer.

During the set-up and tear-down period, passageways in the exhibition hall must not be obstructed with packing materials, construction materials or debris. External contractors appointed by Exhibitors building raw space or island booths are responsible for removing their own debris from the site at the end of each day.

At the end of the exhibition, the contractor must remove from the site all the materials from their client’s booth. Should they not do so; the deposit paid will be used to pay for removal by the official cleaning contractor.

During show period, Exhibitors are requested to place their general rubbish in the aisle just infront of their booths, so that the official cleaners will remove them at the end of each show day. The Organizer reserves the right to charge Exhibitors for the cost of removal of excessive packing materials and discarded bulky crates or cartons.

C4 INDUSTRIAL GAS DEMONSTRATION AND FIRE PRECAUTION

Exhibitors, who because of the nature of their exhibits require specific fire precaution, must make arrangements at their own cost for provision of such equipment / service.

Exhibitors must not bring in or use at the exhibition site any dangerous or hazardous goods and equipment such as poisonous gas, fuel, kerosene, noxious materials, inflammables, and equipment using such inflammable materials as gas stoves and electric stoves without prior written consent of the Organizer. Smoking is strictly not permitted in the venue premises at all times.
C) RULES & REGULATIONS

C5 LIABILITIES

General third party liability insurance will be covered and handled by the Organizer. However, it is the responsibility of each Exhibitor to arrange adequate coverage for its own exhibits during the exhibition.

All Exhibitors must arrange at their own cost “all-risk” insurance coverage from their origin country up to their exhibition booth including exhibition period and return to domicile. Exhibitors must ensure that they are fully covered by insurance and take out public liability and comprehensive protection.

Exhibitors are also responsible for making good any loss or damage to any item which they have rented or hired from the official contractors/ suppliers.

Though the Organizer maintains security surveillance at all times, Exhibitors are reminded that goods / exhibits will still, nevertheless, be at risk, especially during the final day of the show. Please ensure your stand, especially personal and valuable property, portable and rented items, are not left unattended at any time before, during and after the show. Exhibitors are reminded that small, portable and valuable items are most at risk after the exhibition closed each day. Therefore, Exhibitors are advised to keep these safely stored each day before leaving the exhibition area.
